

About our Badge Scanning App What is EMPERIA?

APP COMPATIBLE:

With Android and iOS, available in GooglePlay and AppStore.

DATABASE: generate leads and download the contact database.

LEADS MONITORING: track the leads synchronized to the cloud by your team in real time.

INTERNET FREE: The app is capable of capturing leads without Internet (*it will only require an Internet connection to synchronize the generated leads to the cloud*).

HOW MANY PEOPLE CAN USE THE APP AT THE SAME TIME?

Each exhibitor gets one license with an access number that will allow you to register unlimited users who will be able to use the app simultaneously during the event.

Mobile application designed to generate leads through scanning the QR codes on attendee badges during the physical event.

APP DIGITAL BADGE SCAN

Scan de QR code to buyers who attend your booth during the event and donwload the leads database that you generated to contact them.

You can use the APP with all collaborators who are attending your stand in the expo.
